ADD-ON-ITEMS

RUG PADS

SAFETY
Rug pads hold rugs in place, helping prevent bunching & slipping

PROTECTION
Rug pads provide a buffer zone for dirt and dust, keeping them off of your hard surfaces, preventing staining and permanent damage.

CUSHIONING
Add cushion for a softer feel under foot. Rug pads provide extra padding, increasing comfort

LONGEVITY
Rug pads protect the rug's weave, extending the life of the rug.

Premier protection and cushioning for hard surfaces and carpet, our rug pads offer the ultimate in cushioning and insulation to prevent pile crush & extend rug life. The needle-punched fabric and textured waffle-backing provides improved gripping power. Use with the needle-punched fabric down while on carpet, and with the textured waffle-backing when on wood, tile, and other hard surfaces. Superior 3/16" thickness is ideal for tile and uneven surfaces & reduces puckering under furniture.

SEAMS

Our custom rugs come standard with a serged seam, however a hand sewn seam is also available for an upcharge.

CONSTRUCTION STYLES

HAND KNOTTED

The most labor-intensive of all weaving techniques, hand-knotted rugs are produced by tying individual threads onto the warp to create a design. This method of crafting is often passed down through generations, and there are a variety of knot styles including Persian, Turkish, and Tibetan knots.

HAND-TUFTED

This popular construction method is produced using a handheld tufting gun. Strands of a material are fed through the gun and punched into a stretched canvas (scrim) to create the rug design. These yarns are then secured in place with an adhesive such as latex, which is glued to a separate backing. Once finished, the surface yarns can either be cut to create a tufted rug or left as-is to create a hooked rug.

HAND WOVEN

A hand Woven, or flat-weave rug, is constructed without a pile. Weft yarns of a chosen material are Woven through the warps to create a pattern. Like hand-knotted rugs, there are many variations of the basic flat-weave technique. Kilims, Dhurrie rugs, and Navajo rugs are just a few examples. Hand Woven rugs are typically lighter weight, relatively damage-resistant, and require low to no maintenance.

LOOM WOVEN

Our loom-Woven rugs are made on state-of-the-art looms, which have been customized to weave exceptional quality products with a feel and suppleness that rivals handmade rugs. These loom-Woven pieces are then hand washed and hand finished, utilizing time-honored techniques, to accentuate the beauty of each individual rug. The loom-Woven rugs from Theodore Alexander have the texture, look, and feel of a high-quality handmade piece without the high cost normally associated with handmade rugs.

AXMINSTER WOVEN

This type of carpet is made by selecting, cutting, and inserting individual yarn color as *U* shaped tufts into the backing material, creating a dense and durable carpet that is perfect for high-traffic areas. One of the defining characteristics of Axminster carpets is the clarity of pattern and vibrancy of color that they offer.

FIBER	SUGGESTED CLEANING AND CARE
New Zealand Wool	• Vacuum regularly.
Wool	• Pile shedding is a normal characteristic of quality area rugs.
Rayon	• Avoid use of beater-bar type vacuum as they may cause yarns to pull or snag. If this happens, avoid pulling yarn knots out of surface pile.
Cotton	
Nylon	• Clean spills immediately by blotting with a clean sponge or cloth.
Faux Silk	• Always use a professional cleaning service. Consumer self-cleaning methods are discouraged.
Acrylic	
Polyacrylic	• Rug padding is recommended.
Viscose	• Vacuum regularly. Vacuums with beater bars are not recommended.
Luxcelle	• Avoid pulling yarn knots out of surface pile.
Bamboo-extruded Silk-like Fibers	• Always use a professional cleaning service. Consumer self-cleaning methods are discouraged. Carpet can easily stain and yellow with improper cleaning chemicals. • For spills, blot the affected area with white paper towels or a clean white terry cloth towel. Moisture will weaken the fiber, and rubbing could then cause breaking or damage. • After blotting stains, groom by combing the face of the rug in the direction of the pile with a soft brush. The pile may look flatter and more reflective afterward. • Once dry, re-brush the fiber to regain original texture. • Rug padding is recommended.

If recommended procedure is not effective, call a reputable cleaner, particularly for complex stains. Don't wait for annual cleaning, since it may be too late by then to remove the stain.
