The ENGLISH CABINET MAKER

The English Cabinet Maker collection is a celebration of the art and craft of British furniture over the last four centuries.

The designer Stephen Church, a notable and classically trained cabinetmaker in his own right, draws on classic British furniture and adds his own signature style. No detail is insignificant. From hand selected woods and veneers, exceptional finely cast hardware and beautifully cut dovetails, these truly are a connoisseur's homage to classic British style.

Every process and every detail, from a carved chair leg to a table finish or inlay, is executed by hand. Our craftsmen employ time-honoured techniques to craft truly beautiful furniture you'll fall madly in love with.

All surfaces of our furniture are prepared, sanded and finished, even those areas that are not always visible. This includes the undersides, the backs and the inside of the drawer boxes among others.

We believe that the person who owns a piece of Theodore Alexander furniture should take comfort in knowing the item can be viewed from any side and that we've made the piece using a time-honoured, handcrafted method that is the true mark of high quality.

CRAFTSMANSHIP

METALWORK

Traditional yet sophisticated techniques achieve the exceptional details in our high quality brass hardware. Investment casting, a refined version of lost wax casting is used to create these fine forms. Hand polished to perfection and caringly antiqued, our hardware takes on a jewellery-like character. All hardware is made in Theodore Alexander's own foundries which allows us to maintain our constant high standards.

VENEERING

We hand choose our veneers for the Cabinet-maker collection. From European to exotic veneers, all are selected for quality, colour and figure from the finest sources. Our hand inlaid marquetry and parquetry designs, which also incorporate brass inlay, reflect the very best of traditional English cabinetmaking.

FINISHING

Careful sanding of all exposed surfaces is critical to achieve the clarity of finish required to highlight the fine veneers and woods in this collection. Even in dark finishes the figure of the woods can be fully appreciated. A layered approach to the colour elicits a depth of finish that is unrivalled.

CABINETRY

The cabinetry techniques for this collection are grounded in the rich skills and heritage of the 18th century. Traditional jointing, dovetailed drawers and solid interior construction are mainstay of this collection which evokes and continues the fine traditions of craftsmanship set by the masters of English cabinetmaking.

FINE WOODWORK

Finely hand-carved and turned details in solid mahogany are key elements of Cabinetmaker furniture. Theodore Alexander artisans sculpt both bold and delicate details by hand so that each piece retains unique character.
